# Why BA?

## A versatile degree for your future career

### Building on professional skillsets and knowledge-

A BA degree increases your qualification, teaches essential knowledge and skills that you can use at work and in daily life. Some of the skills you develop include communication and writing skills along with self-organization skills. In short, you develop skills needed in different work environments, which means you can fit in almost to any organization.

### Aligning your degree education with your passion and interest-

Going to school not only helps you develop education-related knowledge but also gain a strong interest in what you love. A BA degree allows creativity, which will enable you to follow your passion.
